——— Twentieth century practice. An international encyclopædia. 20 vols. and index. London, 1895-1900 D 347

Vol. 1. Diseases of the kidneys, surgical and the ureters, of the bladder, prostate, male urethra, urine, female bladder and urethra
,, 2. Addison's disease and other diseases of the adrenal bodies, diabetes mellitus, rheumatism, gout, arthritis deformans, diseases of the muscles, obesity
,, 3. Alcoholism and drug habits, shocks and collapse, sea sickness, mountain sickness, osteomalacia, heat stroke, frost bite, diseases of occupations, poisoning

Encyclopædia. Twentieth century practice. An international encyclopædia. 20 vols and index. London, 1895–1900 (*continued*) D 347

Vol. 4. Diseases of the heart and pericardium, diseases of the blood-vessels, of the lymphatic vessels, of the thyroid gland

,, 5. Anatomy of the skin and its appendages, parasitic diseases, erythematous affections, eczema and dermatitis, squamous affections, papular affections, bullous affections, pustular affections, phlegmonous and ulcerative affections, diseases of the sebaceous glands, diseases of the sweat glands, diseases of the hair and nails, benign neoplasms, xeroderma pigmentosum, dermatoneuroses

,, 6. Diseases of the nose, of the accessory sinuses of the nose, of the naso-pharynx and pharynx, of the ear, of the tonsils, of the larynx, of the trachea and bronchial tubes, of the lungs

,, 7. Diseases of the pleura, asthma, hay fever, diseases of the mediastinum, of the diaphragm, of the blood, rachitis, disorders of menstruation, functional diseases of the male sexual organs, chemical and microscopical examination of the urine

,, 8. Diseases of the mouth, of the œsophagus, of the stomach, of the pancreas, of the peritoneum ; animal parasites and the diseases caused by them, and treatment

,, 9. Local diseases of the mouth, of the intestines, hernia ; diseases of the spleen, of the liver, of the gall-bladder, movable kidney

,, 10. Diseases of the brain ; intercranial hæmorrhage, embolism, thrombosis, tumours of the brain ; diseases of the meninges, hysteria, epilepsy, spasmodic neurosis, neurasthenia, disorders of speech, disorders of sleep

,, 11. Diseases of the cerebro-spinal and sympathetic nerves, trophoneuroses, diseases of the spinal cord, tabes dorsalis, combined system diseases of the spinal cord, pain

,, 12. Insanity, idiocy, criminal anthropology, old-age, diseases of children

,, 13. Ptomaine, toxins, and leucomains, infection and immunity, water-borne diseases, duration of incubation, and infectiousness in acute specific diseases, smallpox, vaccina, mumps

,, 14. Scarlet fever, measles, German measles, chickenpox, glandular fever, whooping-cough, cholera infantum, cholera nostras, Asiatic cholera dengue, beriberi, miliary fever, Malta fever

,, 15. Influenza, typhus fever, plague, glanders, anthrax, foot-and-mouth disease, actinomycosis, rabies, pyæmia and septicæmia

,, 16. Lobar pneumonia, cerebrospinal meningitis, dysentery, yaws, inflammation, erysipelas, simple continued fever, relapsing fever, typhoid fever

,, 17. Diphtheria, tetanus, cancer, sarcoma, malignant new growths of the skin, malignant diseases of the female organs of generation

,, 18. Acquired syphilis, inherited syphilis, leprosy

,, 19. Malaria, micro-organisms, micro-organisms (protozoa)

,, 20. Tuberculosis, yellow fever, poisoning with snake venom, mushroom poisoning, disease of the uvula, soft palate and faucial pillars, neural and mental diseases in children
